Aero Performance Products, Inc. Reports Increased July Sales of Aero Exhaust Products

Issued Tuesday, Aug 12, 10:29 am ET

Sales increase 90% over same month in 2007

SOUTH JORDAN, UT--(MARKET WIRE)--Aug. 12, 2008--Aero Performance Products, Inc. (Other OTC: AERP), which operates Aero Exhaust, Inc., a world leader in performance exhaust airflow technology and NASCAR Performance Partner, reported that unaudited sales for Aero products in July 2008 were 90% higher than in July 2007.

The improvement for the month of July follows the disclosure that sales of Aero Exhaust products for the fourth fiscal quarter of 2008 were 22% higher than the same period last year with a gross profit margin up to 39% for the period, a significant improvement over the results from the previous fiscal quarter.

Aero Performance Products has provided the updates on sales in order to keep its shareholders informed during the period before the annual report is due to be filed in late September.

“July was another improved month for Aero Exhaust, and represents a good start of the new fiscal year and we are pleased to have built on the success of the previous quarter,” stated Aero Performance Products CEO Bryan Hunsaker. “We look forward to continued improvement over previous years’ number as awareness of Aero Exhaust products grows and an increased supply of products becomes available.”
